

This is the great looking and even better performing HSP Nitro Radio Controlled Monster truck. The truck is very tough and a good all rounder performing well both off and on road. The R/C is feature packed making it one of the top spec buggies on the market and the SH.21 Engine along with the automatic 2 speed gearbox makes it extremely quick. The R/C comes fully built with everything included including many alloy parts, apart from fuel, glow plug start and 12 normal AA batteries. All products are supplied with the Transmitter, detailed Instruction Manual with additional information sheets plus a free download book. Nitro models require 12 x AA Batteries.
