

XLF X03 1/10 2.4G 4WD 60km/h Brushless RC Car Model Electric Off-Road RTR Vehicles

Description:

Basic information	Brand:XLF Item No:X-03 Scale: 1/10 Color:Red Max Speed: 60km/h	Power System	ESC:40A two in one esc Motor:2847 3000kv brushless motor Servo:19g 2.2g torque servo
Transmitter	Frequency: 2.4G Channel:2CH Remote Distance:>80m Required Battery:3X AA battery(not included)	Battery	Battery for the Car:7.4V 1600 mAh Li-ion battery(included) Charging Time:About 4 hours Battery Playing Time:Approx.20 minutes
Other	Climbing Angle:≥45° Material: ABS, nylon and alloy	Dimension	Car Size:38*27.5*16.5cm Box Size:40*30*18cm

Features:

- 1.This RC car uses 2.4g frequency remote controller,support to control the RC car in 80m distance, RC car will not interfere with each other
- 2.Strong off-road climbing ability, not restricted by site, whether it is sand, mud, rugged mountain roads, etc.
- 3.Powerful brushless motor, it is more faster than the similar type RC car
- 4.The throttle is proportional controlled, it can be accelerated and decelerated freely, better handling;
- 5.The remote controller is with brake function.

Package included:

- 1X RC Car
- 1X Battery

- 1X Transmitter
- 1X Manual
- 1X USB Charging Cable
- 1X Phillips Screwdriver
- 4X Car Clip Pins
