

1/28 2.4G 4WD Short Course Drift RC Car Vehicle Models With Light & Xtra Battery

Description:

Basic information	Brand:Wltoys Models:284131 Model:1/28 Speed:30km/h	Power system	Motor:brushed 130 Servo:digital servo
Transmitter	Frequency:2.4 GHZ Battery: 3XAA battery(not included)	Battery:	7.4V 400mAh
others	Charge time:63min Using time:18 min Control distance:100m Function:forward,backward,left,right Proportional control:proportional control	Dimension	Size:17.5*8*5.5CM Package size:22.5*19*13CM Weight:655g

Feature:

1. Full simulation structure design, full real car control feeling (remote control, realizing high-speed driving, instant acceleration, deceleration, braking, backing, turning, lights. Independent suspension of front and rear wheels for smooth cornering and stable body posture.
2. Adopt 7.4V 400mAh, 130 brush motor, speed up to 30KM/hour
3. All-terrain rubber tires have strong ground adhesion and

resistance to friction;

4. Four-wheel shock absorber, the shock absorber performance can better adapt to the bumps of various terrains.

5. Digital steering gear is used to control flexible steering, making driving smoother, cornering more stable, and durable.

6. Cool LED lights, no barriers to operation at night.

Package included:

1*RC Car

1*Controller

1*Rechargeable battery(built-in)

1*Charger
