

UDI009 RC Racing Boat 2.4G 30KM/H High Speed Remote Control Boat

Description:

This UDI009 high speed electronic remote control boat with impressive features, which is suitable for kids and adults to play indoors and outdoors.

Main Features:

2.4GHZ High Speed: 2.4Ghz marine radio control system supports multiple rc boats to race synchronously! The max speed up to 30km/h allow you blow other remote control boats out of the water! Ideal rc racing ship toys for Pool and Outdoor!

Dual-Locking Cover Designed: Designed with double covers to avoid infiltration of water during play and damage the boat.

Auto-Corrects Yaw: Internal Navigation Rudder Design allows the rc boat correcting the yaw automatically which makes a easy sailing.

Capsize Recovery Feature: Self-Righting Hull Design gets the racing boat back to the game quickly while the boat is capsizing .

Watercooled System:Features a water-cooled, single-prop powerful motor for safety and reliable operation, plus a rugged ABS anti-tilt hull makes precise waterproofness.

Low Battery Alarm: The controller will sound alarm to remind you of battery charging or replacing while the battery is in low power.

Poor Signal Alarm:The controller will sound alarm while your racing boat is in weak signal status to protect the rc boat from sailing out the max controllable distance.

More Features:

- 1.Sleek Design: The boat's streamlined hull and compact design provide impressive handling & ability to run in relatively small bodies of water.
- 2.With Display Stand: Used for displaying your electronic remote control boat &quicker drying not only protect the engine and shorten the next racing time .
- 3.High Speed Electronic Racing Boat: Speed of 18 MPH will stand out your rc boat while racing .

Specifications:
